

JOSHUA C. RUE

Environmental Technician- Columbia, SC

Academic Credentials:

B.S. Biology, 2019
Anderson University, Anderson, SC

Professional Credentials and Certifications:

OSHA 30 Hour General Industry Certification
South Carolina Adopt-A-Stream Certified

Employment Record:

2019 - Present - Smith Gardner, Inc.

Areas of Expertise:

Water Quality Sampling and Data Collection
Environmental Data Analysis
Stream and Floodplain Mitigation and Restoration

Focusing on environmental sampling, water quality sampling, and data analysis in school, Mr. Rue works with water quality monitoring and compliance, soil evaluation, landfill gas compliance, and other environmental monitoring and reporting.

Mr. Rue is experienced in environmental data collection and analysis and has worked in a variety of environments ranging from wetlands to tropical settings. He is well versed in South Carolina water and soil quality monitoring parameters and collection protocols.

For Smith Gardner, Mr. Rue's work has focused on environmental monitoring and reporting. He routinely performs water quality monitoring at Class 3 and Class 2 landfills, as well as assessment monitoring, monitoring for remediation system performance evaluations, and monitoring at Superfund sites and hazardous waste disposal facilities. He conducts air sampling and routine landfill gas monitoring and compliance at numerous landfills along with performing Tier 2 sampling at several sites.

Mr. Rue also performs data evaluation and prepares a variety of reports (Water Quality Monitoring, Landfill Gas Monitoring, etc.) for submittal to the SCDHEC and clients across the region.

Graduating from Anderson University with a degree in biology, Mr. Rue has continued to pursue his passion for the environment. Mr. Rue has volunteered with South Carolina Adopt-A-Stream, a program he has worked on creating watershed stewardship through education.
