

## MATTHEW B. STAGG

Environmental Technician - Raleigh, NC

### Academic Credentials:

B.A. Environment & Sustainability, 2022,  
Wake Forest University, Winston-Salem, NC

### Professional Credentials and Certifications:

OSHA 40 Hour HAZWOPER

### Employment Record:

2022 - Present - Smith Gardner, Inc.

### Areas of Expertise:

Groundwater Quality Sampling and Data Collection  
Environmental Data Analysis  
Landfill Gas Monitoring  
Well Field Tuning

Mr. Stagg has experience with stormwater pollution prevention plans, greenhouse gas evaluation and compliance, and landfill gas monitoring. He also has experience in stormwater discharge sampling and groundwater sampling.

Mr. Stagg joined S+G in 2022 after completing his B.A. in Environment and Sustainability at Wake Forest University. He specializes in the development of Stormwater Pollution Prevention Plans (SWPPPs) for compliance with landfill stormwater general permits and greenhouse gas evaluation and compliance using landfill intake data to determine compliance with greenhouse gas emissions requirements.

Mr. Stagg's field work has included performing landfill gas (LFG) monitoring, collecting LFG samples from wells and performing surface sweeps. He has also collected samples during stormwater discharge events for analysis in compliance with discharge monitoring requirements.

Mr. Stagg's current work revolves around environmental monitoring and compliance of groundwater at open and closed solid waste facilities. In addition to environmental fieldwork, Mr. Stagg assists in analyzing data, preparing reports for a variety of different projects, and researching grant opportunities that are applicable to different facilities and projects in the solid waste industry.
